

SafeStart Systems LLC Capability Statement

(203) 221-0652 sales@safestartsystems.com

Core Competencies

- **SafeStart Systems LLC** is the manufacturer of patented *SafetyGate*™ anti-restart technology products. The simple, effective, low cost and fully scalable restart protection solution technology is currently in use by the most notable names in Aerospace, Military, Education, Government, Medicine, and Private Industry.
- SafetyGate products are designed and manufactured in the USA under ISO 9001:2008 and are Underwriters Laboratories listed.
- SafetyGate products are specifically designed to meet all U.S. and foreign regulatory mandates for restart protection in applications ranging from small appliances and power tools to commercial machines and industrial power systems.
- SafetyGate restart prevention solutions are available as complete units for simple end user installation or as OEM circuitry components for implementation into a customer's current or proposed product design.
- With IEC 60601-1 ver.3 being instituted throughout the Medical Manufacturing sector, SafeStart Systems created their SafetyGate Pro-Med restart protection products; positioning the company as a global leader in effective low cost restart protection compliance solutions for Medical equipment designers and manufacturers.

Differentiators

- Traditional restart prevention technologies require a physical reset on the protection device. SafetyGate restart protection products are completely automatic, with no buttons to push or switches to reset; using your machine's own power switch to restore normal operation.
- This exclusive feature prevents dangerous secondary restarts caused when a device is restarted away from the operator's control.
- The SafetyGate restart prevention circuitry also identifies short circuits which may be present in your machine at power up and restricts current until the circuit is corrected.
- The patented SafetyGate miniaturization technology equates to the lowest cost, weight and footprint available anywhere.

Past Performance

Argonne National Laboratory

Lemont, IL 02/16 - present Contact: Kimberly Davis 630-252-7031 kadavis@anl.gov

U.S. Bureau of Prisons

Anthony, TX 08/13 - present Contact: Mario Gonzalez 915-791-9868 mx2gonzalez@bop.gov

Federal Aviation Administration

Company Snapshot

DUNS: 626675370
CAGE Code: 4F0B0
Accepting Credit Cards: Yes
Sam Registration: Active
Size: Small Business

NAICS Codes

335313 - Switchgear & Switchboard Apparatus Manufacturing

335314 - Relay and Industrial Control Manufacturing (**Primary**)

335931 - Current-Carrying Wiring Device Manufacturing

335999 - All Other Miscellaneous Electrical Equipment and Component Manufacturing

334512 - Automatic Environmental Control Manufacturing for Residential, Commercial and Appliance Use

423450 - Medical, Dental, and Hospital Equipment and Supplies Merchant Wholesalers

423490 - Other Professional Equipment and Supplies Merchant Wholesalers

423610 - Electrical Apparatus and Equipment, Wiring Supplies and Related Equipment Merchant Wholesalers
